19 December 2011

Ms Amy Barrett
Manager – South-East & Central Registry
National Native Title Tribunal
GPO Box 9973
SYDNEY NSW 2003

Dear Amy,

Re: Preparation of an Aboriginal cultural heritage assessment for proposed Balranald Project including the West Balranald and Nepean Deposits, EL7450.

Iluka Resources Limited is proposing to undertake an Aboriginal cultural heritage assessment for the proposed Balranald Project, a mineral sands mine over two deposits (West Balranald and Nepean) in central New South Wales. The proposed mine will operate over a period of 10 years.

The proposed mine is located in the Balranald Local Government Area north of the township of Balranald and is contained within the Parishes of Pianupanga, Patka, Pennar, Ballah, Crooke, Muckie, Lawrence, Willibah, Bidura, Yarrington and County of Carra, and Parish of Brooke and County of Tala. The proposed mine is located within the boundaries of Balranald Local Aboriginal Land Council. (Refer to Figure 1)

Iluka Resources Limited will prepare an environmental impact assessment for the proposed mine. Planning for the mine is currently in the pre-feasibility stage with a number of preliminary studies already completed.

For this project, consultation with Aboriginal stakeholders will be undertaken in accordance with the Office of Environment and Heritage (2003) Guidelines, Aboriginal cultural heritage consultation requirements for proponents 2003. As part of this process, may I request that your organisation provides Iluka Resources Limited with a contact list of registered Aboriginal stakeholders who may have an interest in this project.

Thanking you in anticipation of your assistance. Please do not hesitate to contact me should you have any questions.

Yours faithfully

I refer to your letter of 19 December 2011 received by the Office of Environment and Heritage (OEH) on 23 December 2011 regarding the above matter. Please note that some OEH functions are exercised by the Environment Protection Authority (EPA).

Attached is a list of known Aboriginal parties for the Balranald local government area that OEH feels is likely to have an interest in the development. Please note this list is not necessarily an exhaustive list of all interested Aboriginal parties and receipt of this list does not require the remuneration of a proponent consultant to advertise in local print media and contact other bodies seeking interested Aboriginal parties, in accordance with the Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010 (April 2010).

If you wish to discuss any of the above matters further please contact me on (02) 6239 7116.

Yours sincerely,

DIMITRI YOUNG
Manager Landscape and Aboriginal Heritage Protection (South) Environment Protection and Regulation

16 January 2012

Dear Maria

Re: Request - Search for Registered Aboriginal Owners

I refer to your letter dated 19 December 2011 regarding Aboriginal stakeholders within Balranald area NSW.

I have searched the Register of Aboriginal Owners and the project area described does not have Registered Aboriginal Owners pursuant to Division 3 of the Aboriginal Land Rights Act 1983 (NSW).

You are no doubt in contact with the co-management advisory committee and Elders Council which currently manage the land with National Parks & Wildlife.

I suggest you also contact the Balranald Local Aboriginal Land Council as Munge National Park is located within their land council boundaries. They may also be able to assist you in identifying other Aboriginal stakeholders for this project.

Yours sincerely

Tabatha Dantoine
Administrative Officer

BURONGA NSW 2739

Dear Warren,

Re: Preparation of an Aboriginal cultural heritage assessment for proposed Balranald Project including the West Balranald and Ngeepa Deposits, EL7450.

Iluka Resources Limited is preparing an environmental assessment for the proposed Balranald project, a mineral sands mine over two deposits (West Balranald and Ngeepa) in western New South Wales. As part of this assessment, Iluka Resources Limited will undertake an Aboriginal cultural heritage assessment.

The proposed mine is located in the Balranald Local Government Area, north of the township of Balranald and is contained within the Parishes of Pilupungu, Paika, Penarie, Ballah, Crooke, Muckee, Lawrence, Willibah, Bidura, Yarrington and County of Cairn, and Parish of Brooke and County of Tala. The proposed mine is located within the boundaries of Balranald Local Aboriginal Land Council (BLALC). (Refer Figure 1 – Location of EL7450)

The project is at pre-feasibility study (PFS) stage, which is expected to be completed in late 2012. The purpose of the PFS is to evaluate and recommend the most technically and commercially feasible option for the two deposits. Should the PFS recommend the project proceeds to the next stage and with Government approvals secured, construction will commence in 2014. The mining operation is expected to have an economic life of at least 10 years.

Consultation with Aboriginal stakeholders will be undertaken in accordance with the Office of Environment and Heritage (OEH) National Parks and Wildlife Act 1974 – Aboriginal cultural heritage consultation requirements for proponents, 2010.

Iluka Resources Limited is inviting registrations of interest from Aboriginal persons or groups who hold cultural knowledge relevant to determining the significance of Aboriginal object(s) and or place(s) in the proposed assessment area. This will contribute to the assessment process and preparation of an application for an Aboriginal Heritage Impact Permit (should it be required).

Applicants are advised their details will be forwarded to the OEH and the BLALC. Please specify if you do not wish your details to be provided to the BLALC. In your registration notification please nominate a contact person(s) for your organisation and if you have appointed a representative to act on your behalf, include their contact details in your registration letter.

If you would like to register your interest in the project please do so in writing within two (2) weeks of the date of this letter via email, facsimile or mail to the contact details listed below:

Re: Preparation of an Aboriginal cultural heritage assessment for proposed Balranald Project including the West Balranald and Nepean Deposits, EL7450.

Iluka Resources Limited is preparing an environmental assessment for the proposed Balranald project, a mineral sands mine over two deposits (West Balranald and Nepean) in western New South Wales. As part of this assessment, Iluka Resources Limited will undertake an Aboriginal cultural heritage assessment.

The proposed mine is located in the Balranald Local Government Area, north of the township of Balranald and is contained within the Parishes of Pilarpunga, Pika, Penarie, Ballah, Crooke, Muckee, Lawrence, Willibah, Idura, Yarrington and County of Carra, and Parish of Brooke and County of Taila. The proposed mine is located within the boundaries of Balranald Local Aboriginal Land Council (BLALC). (Refer Figure 1 – Location of EL7450)

The project is at pre-feasibility study (PFS) stage, which is expected to be completed in late 2012. The purpose of the PFS is to evaluate and recommend the most technically and commercially feasible option for the two deposits. Should the PFS recommend the project proceeds to the next stage and all necessary approvals are secured, construction will commence in 2014.

Consultation with Aboriginal stakeholders will be undertaken in accordance with the Office of Environment and Heritage (OEH) National Parks and Wildlife Act 1974 – Aboriginal cultural heritage consultation requirements for proponents, 2010.

Iluka Resources Limited is inviting registrations of interest from Aboriginal persons or groups who hold cultural knowledge relevant to determining the significance of Aboriginal object(s) and or place(s) in the proposed assessment area. This will contribute to the assessment process and preparation of an application for an Aboriginal Heritage Impact Permit (should it be required).

Applicants are advised their details will be forwarded to the OEH and the BLALC. Please specify if you do not wish your details to be provided to the BLALC. In your registration notification please nominate a contact person(s) for your organization and if you have appointed a representative to act on your behalf include their contact details in your registration letter.

If you would like to register your interest in the project please do so in writing within two (2) weeks of the date of this letter via email, facsimile or mail to the contact details listed below:

BALRANALD NSW 2715

Dear Danny

Re: Preparation of an Aboriginal cultural heritage assessment for proposed
Balranald Project including the West Balranald and Nepean Deposits, EL7450.

Iluka Resources Limited is preparing an environmental assessment for the proposed Balranald
project, a mineral sands mine over two deposits (West Balranald and Nepean) in western New
South Wales. As part of this assessment, Iluka Resources Limited will undertake an Aboriginal
cultural heritage assessment.

The proposed mine is located in the Balranald Local Government Area, north of the township of
Balranald and is contained within the Parishes of Pittarupga, Paika, Pennaire, Ballyh, Grookey,
Muckee, Lawrence, Yallibah, Bidura, Yarrington and County of Caira, and Parish of Brooke and
County of Tall. The proposed mine is located within the boundaries of Balranald Local Aboriginal
Land Council (BLA). (Refer Figure 1 – Location of EL7450)

The project is at pre-feasibility study (PFS) stage, which is expected to be completed in late 2012.
The purpose of the PFS is to evaluate and recommend the most technically and commercially
feasible option for the two deposits. Should the PFS recommend the project proceeds to the next
stage and with Government approvals secured, construction will commence in 2014. The mining
operation is expected to have an economic life of at least 10 years.

Consultation with Aboriginal stakeholders will be undertaken in accordance with the Office of
Environment and Heritage (OEH) National Parks and Wildlife Act 1974 – Aboriginal cultural
heritage consultation requirements for proponents, 2010.

Iluka Resources Limited is inviting registrations of interest from Aboriginal persons or groups who
hold cultural knowledge relevant to determining the significance of Aboriginal object(s) and or
place(s) in the proposed assessment area. This will contribute to the assessment process and
preparation of an application for an Aboriginal Heritage Impact Permit (should it be required).

Applicants are advised their details will be forwarded to the OEH and the BLA. Please specify if
you do not wish your details to be provided to the BLA. In your registration notification please
nominate a contact person(s) for your organisation and if you have appointed a representative to
act on your behalf, include their contact details in your registration letter.

If you would like to register your interest in the project please do so in writing within two (2) weeks
of the date of this letter via email, facsimile or mail to the contact details listed below:

Dear Maria

I am writing in response to your inviting registration interest.

On behalf of Mutthi Mutthi Nations, we like to register our interest in relation to cultural & heritage assessment of chosen sites for mining exploration.

Names of Interest
Contact Daniel Kelly (Senior) 0450200330 of a list of names of interest.

Patricia and John Thomas Winch, Maureen Reyland, Mary Peppin, Ryan Bruton, Maxine Kelly, Daniel Mark Kelly, Shannon Kelly, Zowie Kelly, Joseph Blyth, Cheryl Charles, Jealie Charles, Douglas Smith

Elders of Interest
Jean Charles, Thomas Kelly, Joyce Smith, Mary Peppin, Daniel Kelly, Vicci Walker, Alfred Kelly, Joseph Kelly, Maureen Reyland and Patricia Winch.

The above list of people all have cultural connection to country and have sound knowledge of its cultural & heritage value that would benefit assisting Ikuka project in its whole cultural assessment.

I ask that you please hold the above names from the Balranald Aboriginal Land Council.

If further information required, contact Daniel Kelly on (08) 52020330.

Yours truly,
Daniel Kelly

Mt Warrigal NSW 2585

30th May 2012

Dear Ali,

Thank you for registering your interest in respect to Balranald Project including the West Balranald and Nepean Deposits, EL7450.

A Registered Aboriginal Stakeholder Consultation Meeting will be held at the Balranald Inc, (110 Market St, Balranald) on the 14 June 2012 commencing at 2.00pm. As a Registered Aboriginal Stakeholder you and members of your organization are cordially invited to attend this project information meeting.

The purpose of the meeting is to discuss the following issues:

- The project proposal explaining its scope and outlining the project’s details with respect to environmental and Aboriginal cultural heritage impacts;
- Cultural Heritage assessment process including the role and responsibilities of registered Aboriginal Stakeholders and cultural knowledge holders;
- The project’s assessment timeframe for the completion of key assessment reports and Aboriginal stakeholder consultation; and
- Seeking feedback from Registered Aboriginal Stakeholders on any aspect of the project’s assessment and engagement of potential service providers.

Presenting information to the Registered Aboriginal Stakeholders on the project’s scope will be representatives of Iluka Resources Mr. Andrew Minns OHS & Environment Manager and Ms. Anna Bryant Senior Community Relations Manager and Iluka Resources Senior project archaeologist — Mr. Giles Hamm of Niche Environment & Heritage.

Stakeholders attending the initial consultation meeting will not be paid nor will any travel allowance be paid. Refreshment will be provided.

Could you please contact Ms. Bryant on (08) 8200 2034 or email her anna.bryant@iluka.com and advise whether you will attend the meeting and who will be attending on behalf of your the Registered Stakeholder Group.

Yours sincerely,

[Signature]

- The project’s assessment timeframe for the completion of key assessment reports and Aboriginal stakeholder consultation; and
- Seeking feedback from Registered Aboriginal Stakeholders on any aspect of the project’s assessment and engagement of potential service providers.

Presenting information to the Registered Aboriginal Stakeholders on the project’s scope will be representatives of Iluka Resources Mr. Andrew Minns OHS & Environment Manager and Ms. Anna Bryant Senior Community Relations Manager and Iluka Resources’ senior project archaeologist — Mr. Giles Hamm of Niche Environment & Heritage.

Stakeholders attending the initial consultation meeting will not be paid nor will any travel allowance be paid. Refreshment will be provided.

Could you please contact Ms. Bryant on (08) 8300 2034 or email her anna.bryant@iluka.com and advise whether you will attend the meeting and who will be attending on behalf of your the Registered Stakeholder Group.

Yours sincerely,

Manager Health, Safety, Environment & Community
30th May 2012

Dear Kay,

Thank you for registering your interest in respect to Balranald Project including the West Balranald and Nepean Deposits, EL7450.

A Registered Aboriginal Stakeholder Consultation Meeting will be held at the Balranald Inc. (110 Market St, Balranald) on the 14 June 2012 commencing at 2.00pm. As a Registered Aboriginal Stakeholder you and members of your organization are cordially invited to attend this project information meeting.

The purpose of the meeting is to discuss the following issues:

- The project proposal explaining its scope and outlining the project’s details with respect to environmental and Aboriginal cultural heritage impacts;
- Cultural Heritage assessment process including the role and responsibilities of registered Aboriginal Stakeholders and cultural knowledge holders;
- The project’s assessment timeframe for the completion of key assessment reports and Aboriginal stakeholder consultation; and
- Seeking feedback from Registered Aboriginal Stakeholders on any aspect of the project's assessment and engagement of potential service providers.

Presenting information to the Registered Aboriginal Stakeholders on the project’s scope will be representatives of Iluka Resources Mr. Andrew Minns OHS & Environment Manager and Ms. Anna Bryant Senior Community Relations Manager and Iluka Resources 'senior project archaeologist — Mr. Giles Hamm of Niche Environment & Heritage.

 Stakeholders attending the initial consultation meeting will not be paid nor will any travel allowance be paid. Refreshment will be provided.

Could you please contact Ms. Bryant on (08) 8300 2034 or email her anna.bryant@iluka.com and advise whether you will attend the meeting and who will be attending on behalf of your the Registered Stakeholder Group.

Yours sincerely,

Andrew Minns
Manager Health, Safety, Environment & Community
30th May 2012

Dear Paul,

Thank you for registering your interest in respect to Balranald Project including the West Balranald and Nepean Deposits, EL7450.

A Registered Aboriginal Stakeholder Consultation Meeting will be held at the Balranald Inc., (110 Market St, Balranald) on the 14 June 2012 commencing at 2.00pm. As a Registered Aboriginal Stakeholder you and members of your organization are cordially invited to attend this project information meeting.

The purpose of the meeting is to discuss the following issues:

- The project proposal explaining its scope and outlining the project’s details with respect to environmental and Aboriginal cultural heritage impacts;
- Cultural Heritage assessment process including the role and responsibilities of registered Aboriginal Stakeholders and cultural knowledge holders;
- The project’s assessment timeframe for the completion of key assessment reports and Aboriginal stakeholder consultation; and
- Seeking feedback from Registered Aboriginal Stakeholders on any aspect of the project’s assessment and engagement of potential service providers.

1.2.11 Copy of the project information

Note: The project information presentation also included a presentation of the project methodology (see Appendix 1 Section 1.3 and Appendix 4) and was current as of June 2012. Project design has been updated between 2012 and 2015. See Niche Environment and Heritage. 2015. *Balranald Project Aboriginal Cultural Heritage Assessment Report*. Prepared for Iluka Resources.
Road Access

HMC (Flinders Haulage route to Sturt Highway)
- Preferred haul route is from the process plant in the centre of the mine site to Sturt Highway heading South West to the Sturt Highway
- Several colons of haul runs between Flinders, Balranald and Nepoon deposits being assessed
- Investigation into local sources of road construction material

Light Vehicle Access
- A separate LV access road connecting to the Danawa-Heathcote road to being assessed

HMC (Preferred Case) - eastern portion
- Via Robinvale

HMC (Base Case) - eastern portion
- Via Manangatang
Ilmenite (Preferred Case) 

Transportation 
Road transport options 

IIMC

1.3 Gathering information about the cultural significance

1.3.12 Copy of project methodology

A copy of the project methodology presented on 14 June 2012 is provided here along with the draft survey methodology and agreement and cultural heritage questionnaire. 28 days was provided for review. Copies of the presentation, project information and project and survey methodology were hand delivered to attendees of the information session and sent to Registered Aboriginal Parties who were unable to attend on 14 June 2012. See Section 1.2 for further documentation.

Appendix 4 presents the final version of the project and survey methodology.
Expression of Interest in the Balranald Project, EL7450.

Thank you for your attendance at the Registered Aboriginal Stakeholder Consultation Meeting held at Balranald Inc., 110 Market St, Balranald on 14 June 2012 at 2.00pm.

In accordance with The Aboriginal Cultural Heritage Consultation Requirements 2010, as set out by the NSW Government, Section 4.3 Stage 4 ‘Gathering information about significance’, Iluka requires:

Registered Aboriginal stakeholders to confirm planned participation in the archaeological field survey, as well as provide comments on survey methodology and Aboriginal cultural heritage questionnaire within 28 days from June 14th 2012.

This confirmation should be provided in writing by July 13th 5pm, via post to Anna Bryant (Iluka Resources, 11 Dequetteville Terrace, Kent Town SA 5067) or by email to anna.bryant@iluka.com.

Any queries should be directed to Iluka Resources ‘Senior Project Archaeologist — Mr. Giles Hamm of Niche Environment & Heritage by email to ghamm@niche-eh.com or phone to 0419 720 101.

Yours sincerely,

Andrew Minns
Manager Health, Safety, Environment & Community
Overview of Presentation

- Introduction & Welcome - Andrew Atkinson & Anna Bryant
- Project Scope - Andrew Atkinson
- Analysis Process - Greg Nissen
- Aboriginal Heritage & Heritage Pty Ltd
- Indigenous Stakeholder Consultation Process
- Landscape features of the study area - Greg Nissen
- Cultural background and historical aspects of the study area - Greg Nissen
- Archaeological survey design and Registered Aboriginal stakeholder involvement
- Expression of interest and engagement of survey teams - written feedback to notification, merit assessment, Prefab and assessment criteria

Project Approval requirements

NSW
- Development Consent being sought under NSW Environmental Planning and Assessment Act 1979
- Project has been declared State Significant Development
- Environmental impact statement currently being prepared
- Project to be exempt from Aboriginal Heritage Impact Assessment
- NSW Department of Planning, Industry, Regional and Multicultural Affairs (DPIRMA)

Federal
- May require approval under Environment Protection, Biodiversity and Conservation Act 1999
- Referral to Department of Sustainability, Environment, Water, Population and Community (DEWPA) to determine approval requirements
Registered Aboriginal Stakeholder Role

- Members of the Aboriginal community are the primary interpreters of the significance of their heritage.
- They may participate in the process through consultation on the assessment methodology, assisting with field assessments, contributing cultural knowledge and commenting on cultural significance of potential impacts and/or mitigation measures, and
- The consultation opportunity is provided through the assessment process conducted by the proponent (i.e. Iuka Resources Limited).

OCH and DoM Roles

- Are the decision-makers;
- Review information from the proponents, including information about the views and knowledge provided by registered Aboriginal stakeholders; and
- Make decisions whether to grant or not grant development approval (with or without conditions).

Service Providers (includes both Aboriginal & non-Aboriginal consultants)

- Various parties with specialist skills or knowledge who can be engaged by proponents to help them fulfill their responsibilities.
- Services provided can include Aboriginal assessment and advisory services and archaeological services (i.e. Niche Environment & Heritage Pty Ltd).
- My background: Professional Archaeologist over 20 years experience.

Aboriginal stakeholder registration and written responses

- Iuka Resources Limited has developed a Aboriginal stakeholder register and consultation log process.
- As the OCH/DoM process requires written proof of consultation at all stages of the assessment, Iuka Resources Limited will always request registered Aboriginal stakeholder to respond in writing to all notifications concerning the project’s assessment.

Registered Stakeholder Consultation Process

- Requests for Aboriginal stakeholder consultation meetings will be officially notified in writing and a period of time up to 10 days will be given for written requests or responses to renew for example assessment reports or survey research designs.
- Failure to respond to official notifications, within a reasonable timeframe, will mean that a “no response” was recorded.
- Consultation meetings occurring project will be held with all Registered Aboriginal Stakeholder groups present.

Landscape and Environmental Features of the study area

- The study area is located close to the centre of the Murray Basin in south western New South Wales, which is a large structurally controlled depression which has filled with Terrane marine and non-marine sediments. This succession has subsequently been overlain by Quaternary sediments, fluvial and lacustrine sediments.
- The study area is located within the Riverine Plain Land system.
- The study area lies roughly between the town of Balranald in the south and the village of Mildura in the north and is made up of the Keuran and New Balranald mineral deposits.
Landscape and Environmental features of the study area

- Soils deposits are located on Exploration Licence E1 7450 which was granted to Juka Resources Limited in February 2013. The tenement was formed from the amalgamation of five previous licences E1 61478, E1 61816, E1 51069 and E1 61570.

- The Nepean deposit is located approximately 8 kilometres north-northwest of Balranald, and is contained within two Western Lands leases, 'Wondong' and 'Warrpm'. A Native Conservation Reserve exists on Warrpm Station in the northern half of the Nepean deposit. This private reserve was established in 1999 and covers an area of approximately 17,689 hectares (43,961 acres).

- The Nepean deposit is located within the Arumpo Land System (Self Conservation Service of NSW 2192). The soils within this land system comprise fine sandy loams and light sandy-clay loam. These broad soil types comprise varying amounts of coarse cracking-grey/brown clays, calcareous sands and yellow/red textured contrast soils.

- The Nepean deposit is located on the edge of a topographic ridge known as the Zuka Ridge.

- The landscape is dominated by parallel ridges—west trending sand dunes dominated by mallee vegetation with an underscary of spinifex. The associated interdune swales and plains are dominated by Chrysogonum malleum and Melaleuca Rosewood (Oxytis and Wildlife Frosten, 2001).
Landscape and Environmental Features of the study area

- The West Balranald Slope is situated within the Balranald Land System (S.C. Conservation Service of NSW 1991). The sandy surficial sediments have been extensively reworked into dunes and sand plains. The surrounding rivers and streams in the riverine have cut through the sands and constructed numerous overflow lakes and alluvial plains channels and basins.
- Saline groundwater has formed salt basins in many places where the sand plain or dune topography intersects the water table. Soils and vegetation differ accordingly to the landform.
- On the dune fields red, brown and yellow calcareous sands occur with more clayey materials in the swales. On sandplains the soil tends to be heavier with brownish or greyish brown to greyish profiles, and gravel is found only on sandy soils (Mulla Resources Limited 2016).

Cultural background and archaeological aspects of the study area

- The project area is defined culturally as Mulk Mungkin with some overlap with Ylla Ylla country (see map).
- Study area covers approximately 121.1 km² and is approximately 7 km (north-west of Balranald).
- General landscapes surrounding the study area are rich in evidence of Aboriginal occupation going back to 45,000 years BP (i.e. see Willandra Lakes World Heritage area).
- Important cultural landscape features would be the Yinninpin Lakes, Burgundy Lakes and River Creek.
What type of Aboriginal sites and objects are likely in the study area?

Based on previous work on the Balranald project and other assessments undertaken by Sarah Morris and Badjan Jatu, several Aboriginal sites have already been identified in parts of the study area. Likely to find the following site types:

- Aboriginal scatters
- Inscribed Rock
- Hearths
- Hearth Scatters
- Burial Mounds
- Potential Archaeological Deposits
- Scars
- Scars / Trees
- Earth Mounds
Heritage Survey Design and Registered Aboriginal Stakeholder Involvement:

- Previous scientific research;
- Input from registered Aboriginal stakeholder groups & individuals, including identifying culturally sensitive landscapes;
- Land use and distribution of surface and ground disturbance;
- Visibility of exposed land surfaces;
- Ages of soils and potential land;
- Distribution of natural resources (e.g., Box creeks, Lake margins, Box-Creek drainage, hills, orovales, from lakes, claypan areas and Murrumbidgee floodplain such).

Heritage Survey Transcripts:

- The archaeological survey will be carried out using a selective approach with survey areas chosen based on the potential of finding Aboriginal sites or objects.
- Areas of high potential such as those located around existing drainage and riparian areas (i.e., Lake margins, Box-Creek drainage, hills, ovales) will be targeted for survey assessment.
- Areas of low potential such as the Mullewa woodlands (especially shrubland) will not be targeted for survey assessment.

Heritage Survey Transcripts:

- The archaeological survey will be carried out using a selective approach with survey areas chosen based on the potential of finding Aboriginal sites or objects.
- Areas of high potential such as those located around existing drainage and riparian areas (i.e., Lake margins, Box-Creek drainage, hills, ovales) will be targeted for survey assessment.
- Areas of low potential such as the Mullewa woodlands (especially shrubland) will not be targeted for survey assessment.

Aboriginal Cultural Heritage Assessment Questionnaire:

1. Your name or Organisation Cultural Competency and Cultural Relational Knowledge (please fill in);

2. Are you aware of any sites or areas of cultural significance near your land?

3. Do you have any other information about the cultural significance of the sites?

4. Have you identified any parts of the site that need to be conserved?

5. Do you have any other specific information about the cultural significance of the sites?

6. Additional comments or questions?

Engagement of Survey Team:

- Engagement of the field officers will be managed using a field services agreement.
- Field officers will be selected by Rika Resources Ltd to assist in the field assessment.
- Engagement will be based on the best field officers for the assessment; individuals will be selected for the survey.
- People will be selected on merit.
- This could mean that these different groups are selected to do the survey.
- Maori Environment & Heritage will supervise the survey team and individuals will be accountable to me as the Supervisor.

Survey Assessment:

- Looking at a period of 26 days for the field assessment (e.g., July-August 2018);
- Costs will be $50,000;
- Food, water and transportation will be provided to and from the worksite;
- Work will be paid on a daily/times rate or full time basis;
- IMS forms and OH&S forms will be maintained;
- Field officers will be paid a flat rate for work carried out (e.g., 24 hours, 7 days per week);
- Field officers will have training on site;
- Personal Protective Equipment (e.g., work boots, high visibility vests);
- Field officers will need to have Workers Compensation Insurance and Public Liability cover.

Community Consultation - Appendix 1 Page 47 of 166
Expression of Interest

- Following this meeting, Fluka Resources Ltd will write to registered Aboriginal stakeholders inviting them to register an interest in being a part of the field assessment work.
- Fluka Resources Ltd will need to see the following within 28 days of this written invitation:
  - Up to date Workers Compensation and Public Liability Insurance and ASIN
  - Evidence of cultural knowledge, assessment skills and experience and
  - Availability to undertake works (July-August 2012).

Thank You
Balranald Mineral Sands Project EL 7450
Aboriginal Cultural Heritage Assessment Questionnaire

2. Your name or Organisation / Cultural Grouping you identify with and are representing (i.e. Balranald Local Aboriginal Land Council, Nuthi Muchi, Bakindji, Barindji etc.)

3. Are you aware of any Aboriginal sites or areas of Aboriginal cultural significance near (within 5 km) or within the Balranald Mineral Sands Project EL 7450?

4. Do you regard any part of the Balranald Mineral Sands Project EL 7450 as having aboriginal cultural landscape values?

5. Do you have any traditional, historic or contemporary cultural knowledge that may provide information about the Aboriginal cultural significance of the Balranald Mineral Sands Project EL 7450?
   Yes ☐ No ☐
   (Go to question 9)

6. Do you have any specific advice or information about how the Balranald Mineral Sands Project EL 7450 should be assessed from an Aboriginal cultural heritage point of view?

7. Any additional information

Iluka Resources Limited ("Iluka")

Niche Environment, Heritage Pty Ltd (Niche)

[ ] of [ ] ("Field Officer")

Background

A Iluka is developing the Balranald project (the Project).

B As part of the development of the Project, Iluka is required to prepare and submit a Cultural Heritage Assessment Report (the Report).

C Iluka has engaged Niche Environment & Heritage Pty Ltd to prepare the Report on its behalf (the Iluka Representative).

D Iluka has engaged Niche Environment & Heritage Pty Ltd (Niche) to manage the project administration requirements, including payments to Field Officers.

E Iluka requires (Field Officers) to provide the Survey Services set out in this Agreement to assist Iluka and the Iluka Representative in the preparation of the Report.

1. Services

1.1 Personnel

The Field Officer will provide the Survey Services under the direction of the Iluka Representative who is authorised to undertake all matters under this Agreement.

1.2 Survey Services at the Project Area

(a) The Field Officers will, in accordance with the Iluka Representative’s directions, survey the area identified in Schedule 1 (the Project Area) to identify any ‘aboriginal objects’, as the term is defined in Section 5 of the National Parks and Wildlife Act 1974 (NSW) (Aboriginal Object).

(b) If the Field Officer identifies an Aboriginal Object, the Field Officer must immediately inform the Iluka Representative and follow any directions given by the Iluka Representative relating to that Aboriginal Object.

(c) If the Field Officer has cultural knowledge of the area this information is to be conveyed to the Iluka Representative during the course of the survey. Via questionnaire?
1.3 Review of the Report

(a) The Iluka Representative will prepare and provide to the Field Officer a draft copy of the Report within 30 days from the completion of the Survey Services at the Project Area.

(b) The Field Officer must within 30 days of receiving the Report, review and advise the Iluka Representative in writing of any comments with respect to the Report.

2. Term

2.1 Commencement and Duration

Field Officers will provide the Survey Services at the Project Area:

(a) From [ ] or such other date as may be directed by the Iluka Representative (the Commencement Date); and

(b) For a period of four weeks from the Commencement Date, from Monday to Friday of each week for eight hours a day, but not including New South Wales public holidays.

2.2 Extending the duration of Survey Services

(a) Where the performance of the Survey Services is delayed by reason of unforeseen delays, including inclement weather, the Iluka Representative may by written notice to the Field Officer extend the duration of Survey Services for such period as is reasonably necessary for the completion of the Survey Services.

(b) If the duration of the Survey Services is extended by Clause 2.2(a), the Field Officer must continue to provide the Survey Services for the extended duration.

2.3 Variation

Iluka may, in its sole discretion, by written notice to the Field Officer's vary the scope of the Survey Services, including extending the Agreement to other parts of the Project, including but not limited to the surveying of land over which electricity infrastructure will be built and the location of water bore holes to be drilled. Proposed road alignments and gravel pits?

2.4 Completion

Except where this Agreement is extended by clause 2.3, the Agreement will, unless terminated earlier, terminate upon the nominated Field Officer returning the report to the Iluka Representative in accordance with clause 1.3(b).

3. Payment

3.1 Survey Services

Iluka will pay the Field Officer:

(a) The daily rate set out in Schedule 2 for each hour that the Field Officer provides the Survey Services at the Project Area;
(b) The travel, accommodation and meal allowances incurred while providing the Survey Services at the Project Area in accordance with the amounts set out in Schedule 2; and

(c) The single lump sum fee set out in Schedule 2 for the review of the Report in accordance with clause 1.3(b).

3.2 Timesheets
Prior to making any payment the nominated Field Officer must:

(a) In the timesheets provided by Niche, record the times that they have spent in performing the Survey Services and any travel, accommodation and meal allowances they wish to claim. The time sheets must be submitted to the Iluka Representative for approval at the end of each day; and

(b) Provide a tax invoice for the amount approved by the Iluka Representative.

3.3 Time for Payment
Niche will pay the Field Officer the amount approved by the Iluka Representative in weekly instalments.

4. General Matters

4.1 Site Induction
Prior to commencing the performance of the Survey Services and accessing the Project Area, the Field Officer must attend a site induction provided by the Iluka Representative.

4.2 Operational Health and Safety
The Field Officer must comply with all operational health and safety policies and procedures relevant to the Project Area, including those directed by the Iluka Representative.

4.3 Protective Clothing, Water and Food
While attending the Project Area the Field Officer must provide:

(a) Its own protective clothing, including:

(i) enclosed boots;
(ii) long sleeve shirts;
(iii) sunglasses and
(iv) hats;

(b) sunscreen;

4.4 Relationship
The parties’ relationship is one of principal and independent contractor, not employer and employee, principal and agent or partnership. No contractual or employment relationship will arise between the Field Officer and Niche or Iluka as a result of this Agreement.

4.5 Obligation to Follow Directions
(a) The Iluka Representative is authorised by Iluka to give directions and orders on its behalf in relation to this Agreement. The Field Officer must, at all times, comply with any direction or order given by the Iluka Representative.

(b) The Iluka Representative may at any time direct the Field Officer to leave the Project Area where the Field Assistant has failed to comply with clause 4.5(a) or is, in the Iluka Representative’s reasonable opinion, incompetent, negligent or guilty of misconduct.

(c) Iluka may at any time terminate this Agreement where the Iluka Representative has issued a direction under clause 4.5(b).

4.6 Intellectual Property Rights and Confidentiality

(a) The Field Officer’s agrees to assign to Iluka all intellectual property rights, including all copyright which may arise in respect of, or as a result of, the performance of its obligations under this Agreement.

(b) Each party shall keep confidential all information provided to it by the other party, except where the information is:

(i) required for the Report;
(ii) required to be disclosed by law; or
(iii) disclosed to a party’s professional advisor for the purposes of the Project.
SCHEDULE 1

PROJECT AREA

Parties

Iluka Resources Limited
Registered Aboriginal Stakeholder Organisation

Niche Environment & Heritage Pty Ltd
Nominated Field Officer

Background

- Iluka is developing the Balranald project (the Project).
- As part of the development of the Project, Iluka is required to prepare and submit a Cultural Heritage Assessment Report (the Report).
- Iluka has engaged Niche Environment & Heritage Pty Ltd to prepare the Report on its behalf (Niche).
- Iluka requires (Field Officers) to provide the Survey Services set out in this Agreement to assist Iluka and Niche in the preparation of the Report.
- Registered Aboriginal Stakeholder Organisations are required to be a Registered Iluka Vendor and responsible for preparation of invoices and payments on behalf of nominated Field Officers.

1. Services

1.1 Personnel

The Field Officer will provide the Survey Services under the direction Niche who is authorised to undertake all matters under this Agreement.

1.2 Survey Services at the Project Area

(a) The Field Officers will, in accordance to Niche’s directions, identify ‘aboriginal objects’, as the term is defined in Section 5 of the National Parks and Wildlife Act1 1974 (NSW) (Aboriginal Object).

(b) If the Field Officer identifies an Aboriginal Object, the Field Officer must immediately inform the Niche and follow any directions given by the Niche to that Aboriginal Object.

(c) If the Field Officer has cultural knowledge of the area this information is to be conveyed to the Niche during the course of the survey.
1.3 Review of the Report

(a) Niche will prepare and provide the Registered Stakeholder Organisations a draft copy of the Report within 30 days from the completion of the Survey Services at the Project Area.

(b) The Registered Stakeholder Organisations are to provide this to Field Officers for review and advise the Niche in writing of any comments with respect to the Report within 30 days of receipt.

2. Term

2.1 Commencement and Duration

Field Officers will provide the Survey Services at the Project Area:

(a) From 23rd July or such other date as determined by the Niche during a period of 12 weeks. Field officers days of survey work will be determined by a roster as determined by the Niche.

2.2 Extending the duration of Survey Services

(a) Where the performance of the Survey Services is delayed by reason of unforeseen delays, including inclement weather, the Niche may by written notice to the Field Officer extend the duration of Survey Services for such period as is reasonably necessary for the completion of the Survey Services.

(b) If the duration of the Survey Services is extended by Clause 2.2(a), the Field Officer must continue to provide the Survey Services for the extended duration.

2.3 Variation

Iluka may, at its sole discretion, by written notice to the Field Officer’s vary the scope of the Survey Services, including extending the Agreement to other parts of the Project, including but not limited to the surveying of land over which electricity infrastructure will be built and the location of water bore holes to be drilled.

2.4 Completion

Except where this Agreement is extended by clause 2.3, the Agreement will, unless terminated earlier, terminate upon the nominated Field Officer returning the report to the Niche in accordance with clause 1.3(b).
3. Payment

3.1 Survey Services

Iluka will pay the Registered Aboriginal Stakeholder Organisation on behalf of the field officers:

(a) The daily rate set out in Schedule 1 for each hour that the Field Officer provides the Survey Services at the Project Area;

(b) Travel, accommodation and meal allowances will be paid directly by Niche.

3.2 Timesheets & Payments

Prior to receiving any payment the nominated Field Officer must:

(a) On the timesheets provided by Niche, record the times that they have spent performing the Survey Services and any travel, accommodation and meal allowances they wish to claim. The timesheets must be submitted to the Niche for approval at the end of each day; and

Prior to receiving any payment the Registered Aboriginal Stakeholder Organisation must:

(b) Submit a tax invoice for the Field Officer services, with signed timesheet authorised by Niche by email to Iluka’s nominated person for authorisation.

(c) Iluka request that invoices be submitted on Mondays, for works completed the previous week. Where an invoice is not submitted on a Monday the submission date will be adjusted to the following Monday. Invoices will be paid the first Friday after submission date.

4. General Matters

4.1 Site Induction

Prior to commencing the performance of the Survey Services and accessing the Project Area, the Field Officer must attend a site induction provided by the Nice.

4.2 Operational Health and Safety

The Field Officer must comply with all operational health and safety policies and procedures relevant to the Project Area, including those directed by the Nice.

4.3 Protective Clothing, Water and Food

While in the Project Area Field Officers must provide their own protective clothing, including:

(i) enclosed boots;
(ii) PPE safety vest;
(iii) long sleeve shirts;
(iv) sunglasses and
(v) hats and sunscreen;
4.4 Relationship
The parties’ relationship is one of principal and independent contractor, not employer and employee, principal and agent or partnership. No contractual or employment relationship will arise between the Field Officer and Niche or Iluka as a result of this Agreement.

4.5 Obligation to Follow Directions
(a) Niche is authorised by Iluka to give directions and orders on its behalf in relation to this Agreement. The Field Officer must, at all times, comply with any direction or order given by the Niche.
(b) Niche may at any time direct the Field Officer to leave the Project Area where the Field Assistant has failed to comply with clause 4.5(a) or is, in the Niche reasonable opinion, incompetent, negligent, under the influence of drugs or alcohol or guilty of misconduct.
(c) Iluka may at any time terminate this Agreement where the Niche has issued a direction under clause 4.5(b).

4.6 Intellectual Property Rights and Confidentiality
(a) The Field Officer’s agrees to assign to Iluka all intellectual property rights, including all copyright which may arise in respect of, or as a result of, the performance of its obligations under this Agreement.
(b) Each party shall keep confidential all information provided to it by the other party, except where the information is:
   1) required for the Report;
   2) required to be disclosed by law; or
   3) disclosed to a party’s professional advisor for the purposes of the Project.
SCHEDULE 1

FEES PAYABLE

Iluka Resources will pay the Field Officer’s Registered Aboriginal Stakeholder Organisation
the rate of $600 per full day or $300 for each half day that the Field Officer is engaged for
the performance of the Survey Services at the project Areas, as shown in the timesheets
submitted and approved by the Niche.

All amounts in the Schedule are exclusive of GST.
16th July 2012

Attention: Marla Maher
Mr Ali Maher
National Koori Site Management
3 Cuthbert Drive Mt Warregal NSW 2585

Dear Mr Maher,

Attached to this letter is the Iluka Resources Limited Field Officer Agreement and the proposed Aboriginal cultural heritage work programme for the Balranald Mineral Sands Project area. Nine Field Officer Candidates have been selected to provide assistance with the Aboriginal cultural heritage fieldwork. Due to the fact there are only five Field Officer positions we have had to schedule work using a roster system from which we will ensure that work is evenly distributed amongst the nine selected Field Officer representatives. The roster attached covers the first three weeks of assessment work on the two proposed mine areas (i.e. West Balranald and Nepean). Additional rosters will cover assessment of the proposed power-line route and haul road option.

The first two weeks of the mine assessment will be based in Balranald and Field Officers will be picked up from Balranald Bakery each day at 7.30am. The last week will be based at Mungo Lodge north of the Nepean assessment area. Field Officers will be accommodated at Mungo Lodge for the duration of this field work.

Could you please read and sign the Field Officer Agreement and send it back as soon as possible to Anna Bryant care of Iluka Resources Limited. If you have any queries about this letter or the Field Officer agreement please doesn’t hesitate to contact myself or Anna Bryant at Iluka Resources Limited.
I look forward to working with your organisation in undertaking this important assessment work.

Yours sincerely,

Giles Hamm - Senior Archaeologist
Mobile: 0419 720 101.

1.3.17 Additional copies of correspondence regarding cultural significance in August 2012

8th August, 2012

To Andrew Minns
Manager HSEC
Iluka Resource Limited

Dear Andrew

RE: Balranald Mineral Sands Project; West Balranald.

I am writing to you with some serious concerns, regarding West Balranald. I have spoken to the Two Site officers that are working on this project on what they have found so far. And their Reports are that they have found hundreds of Artefacts, just with a walk over.

I also have obtained a copy Landscape, Dr Matt Cupper – Aboriginal Cultural Heritage Report. And upon reading this Report and the Feedback from our Site Officers, there are a lot of discrepancies.

I find it hard to believe that Dr Cupper did not find and record any new Site, when Niche has recorded at least 20 new Sites.

I wonder if sites found where, either ignored or destroyed by the first Aboriginal Cultural Impact Survey.

With discussions with the other Stakeholders, we would like to see further through investigations in the West Balranald areas, especially Turkyh nest, muckey creek

As these areas area of high significance as to the historic value and it also being so close to the Lake Murga. And perhaps doing some Test Pits would be of value to my people the Muthi Muthi.

Yours Sincerely

Maria Maher
On Behalf of
National Koori Site Management &
Kullila Site Consultants
Av Daniel Kelly  
CEO  
Balranald Aboriginal Health Service  
95 Court Street  
BALRANALD NSW 2715  

27th August 2012  

Dear Daniel,

Expression of Interest - Preparation of a Voluntary Cultural Assessment for the proposed Balranald Project including West Balranald and Nepean Deposits.

Thank you for your assistance on the project so far. Niche Environment & Heritage is in the final stages of completing the Aboriginal cultural heritage field survey of the West Balranald and Nepean Mine Deposits. The survey has identified a number of Aboriginal cultural heritage sites. In an attempt to gain further knowledge about the cultural significance of these sites and the landscape in which our assessment has occurred; Niche would like to invite your organisation to express your interest in participating in a voluntary cultural assessment. Participants will not be paid. We require volunteer nominations of suitable participants who have cultural knowledge about the traditional, historical and contemporary values connected to the cultural heritage of the region, and particularly of the Balranald Mineral Sands mine development areas.

The cultural assessment will be conducted in Balranald and will consist of an approximately 2 hour interview about the cultural significance of the mining development area, and the broader region. The interview questions and themes will be made available prior to the interview to ensure we efficiently collect the valuable cultural knowledge, views and opinions of your organisations representative. The interview will be undertaken by Amanda Atkinson, an archaeologist at Niche Environment and Heritage, however if gender sensitive knowledge needs to be discussed, other arrangements may be made. It is also recognised that individuals and/or organisations may not wish for sensitive knowledge to be made publically available.

To assist in the preparation of the cultural assessment, we would appreciate your organisation responding to this letter within 7 days with the names of nominees who will be able to provide cultural knowledge. In your response, please also indicate whether there is any sensitive
Information which should not be discussed during the interview, or information which should not be publicly available.

Please address your responses to:

Giles Hamm
Niche Environment and Heritage
PO Box W36
Parramatta NSW 2150

Or email: ghamm@niche-eh.com

If you would like to discuss issues raised in this letter, or the Cultural Assessment, please don’t hesitate to contact me.

Kind Regards

Giles Hamm

Balranald NSW 2715

Dear Danny,

Re: Registered Aboriginal Stakeholder Consultation Meeting: Balranald Mineral Sands Project: Aboriginal Cultural Heritage Survey Results.

Please be advised that the registered stakeholder consultation meeting that was to be held on the 10th of October 2012 in Balranald has been postponed until Tuesday 16th October 2012 at 10.00am. The meeting will be held at the Balranald Inc Offices, 110 Market St, Balranald. A BBQ lunch will be supplied.

The purpose of the meeting is to inform all Registered Aboriginal Stakeholders of the results of the recently completed Aboriginal Cultural Heritage Survey for the Balranald Mineral Sands Project. Please invite members of the stakeholder group who participated in the Aboriginal Cultural Survey.

Could you please RSVP by contacting Anna Bryant, Iluka Resources on 08 8300 2034 or email us at Anna.Bryant@iluka.com or ghamm@niche-eh.com by Friday COB on the 12th of October 2012. We look forward to seeing you at the meeting.

Many thanks.

Yours sincerely,

Mr Giles Harnen
C/- Naze
Po Box 231, Concord , NSW 2137

Dear Giles,

Thank you for your letter and the hard copy document of the cultural assessment that was undertaken by yourself and the Aboriginal Field Officers selected from the stakeholders.

The cultural assessment survey shows the importance of site that of cultural & heritage value sits are in the way of being subject to future of minding development.

Should Iluka not withdraw from minding development in the Mutthi Mutthi country – Balranald area

Iluka should take on Mutthi Mutthi people views and recommendations relating to the care of cultural value and artefacts maybe stored/stove in a Mutthi Mutthi Cultural Resource centre to be named after a mutthi mutthi elder Mrs Alice Kelly – Alice background she was one of the first women to sit of the world Willandra heritage advisory committee and Munga Joint Management for many years before entering the dreaming.

With sites of heritage value be respected and left in tact

These issues that needs to be discussed with the minding company

looking forward receiving the draft copy of your report.

Yours sincerely

Daniel Kelly

On behalf of the Mutthi Mutthi People

Dear Whitney,

We are sorry you couldn’t make it to the Balranald Mineral Sands Project (BMSP) Registered Aboriginal Stakeholder meeting held on the 16th of October 2012 in Balranald. The meeting’s purpose was to provide you as a Registered Aboriginal Stakeholder with information on the results of the Aboriginal Cultural Heritage Assessment carried out between July 2012 and September 2012.

Enclosed is a copy of the presentation, please read the presentation and if you have any queries, please do not hesitate to get back to me for any advice etc.

The next step in the BMSP Registered Stakeholder consultation process will be to provide each Stakeholder group with a draft copy of the assessment report for comments and feedback. We are aiming to get you a copy of my report by the end of October/beginning of November.

Please don’t hesitate to get back to me if you have any questions or queries.

Many thanks,

National Knoll Site Management
3 Cuthbert Drive
Mt. Warrigal NSW 2585

Dear Maria and Ali,

Re: Update on the Iluka Balranald Mineral Sands Project

I am writing to you and the other Registered Aboriginal Parties to provide an update on the Balranald Mineral Sands Project. As you know, after completing the fieldwork in 2012, and our Balranald workshop on 16 October 2012 where we presented the preliminary results of the survey, the Cultural Heritage Assessment Report was prepared to a draft form, but not further distributed because Iluka was in the process of considering ground water management strategies. The results is that there are now additional project components that need to be surveyed and added to the Cultural Heritage Assessment Report, including:

- Groundwater management infrastructure (bore, pipeline corridors, access roads etc);
- Gravel extraction areas; and
- An alternative electricity transmission line route.

In addition, Iluka will also be conducting a cultural heritage assessment and applying for a separate approval for:

- An accommodation facility in the township of Balranald (development application to Balranald Shire Council); and,

As discussed with you on the telephone recently we are planning to conduct field assessments for these areas over 2 weeks starting in October 2013. The rates and conditions of engagement for the fieldwork will be the same as those used for the 2012 fieldwork.

Subsequent to the fieldwork, Iluka will convene a meeting of all stakeholders in Balranald to discuss the outcomes of the additional fieldwork, and the progression of the project thereafter.

Please contact me via e-mail or telephone to let me know your availability, or if you have any other queries with regard to the project.

Yours sincerely,

Jamie Reeves
Niche Environment and Heritage
Tel: 0488 224 888
Hi All,

Please find below the confirmation of the fieldwork starting Monday 21 October.

We will meet at Balranald Bakery at 12:30 – 1:00 pm. Once assembled the team will be inducted into the site/work by Julienne Goode from Buka. This will take a couple of hours. We will then try and do some short amount of fieldwork. Please note we will be travelling from Balranald, and returning to Balranald each day, and will make arrangements within that on a daily basis.

Please note that the induction will include a breath test (drug and alcohol) and a brief medical questionnaire so we are aware of and can manage any pre-existing issues. Please ensure everyone has appropriate gear, include long sleeves and pants, and lace up safety boots.

Please always contact myself or Clare with any queries etc in the first instance, but if you get stuck other contacts for the project will be as follows:

Niche
 Jamie Reeves – 0488 224 888 – managing project in general
 Clare Anderson – 0488 274 105 – managing the fieldwork
 Mandy Atkinson – 0419 325 961 – assisting Clare

Luke
 Julienne Goode – 0412 186 393 – Project supervisor
 Denis Stange – 0418 829 601 – Field supervisor

Please do not hesitate to contact me over the weekend, or at any time if there’s anything I can do to help finalise the arrangements.

Have a great weekend,
Jamie

Primbee NSW 2502

Dear Paul,

Re: Update on the Iluka Balranald Mineral Sands Project

I am writing to you and the other Registered Aboriginal Parties to provide an update on the Balranald Mineral Sands Project.

We completed our most recent fieldwork in October 2013 and since this time Iluka Resources have been refining the proposed mine plan and project footprint to incorporate the latest engineering requirements, and to take into account the results of the Aboriginal Cultural Heritage, ecological and other environmental assessments.

We expect the proposed mine plan and project footprint to be available in late August or early September 2014. In addition to this there may be a requirement for additional Aboriginal cultural heritage survey in September and we will confirm this requirement with you prior to any survey taking place.

Subsequent to this the draft Aboriginal Cultural Heritage Assessment will be completed and forwarded to you and the other registered Aboriginal Parties and the necessary agencies and non-regulatory bodies for review.

As part of the review we propose to arrange another project information and consultation session in Balranald to present and discuss the results of the Aboriginal cultural heritage assessment. During this time we will also be meeting with the Office of Environment and Heritage and the Willandra Lakes Region World Heritage Committee with regards to Aboriginal cultural heritage values in the study area.

Please do not hesitate to contact me via e-mail or telephone if you would like to discuss the project’s status further. We look forward to seeing you again in Balranald soon.

Yours sincerely,

Jamie Reeves

1.3.27 Copies of Project Updates and fieldwork invitations December 2014

**Work Health and Safety Requirements**

- **Inductions**
  - Site Officers must complete an Ikuka induction before commencing work;
  - Site Officers must comply with the Safe Work Method Statement for the project.

- **Insurance**
  - Site Officers must be covered by valid Public Liability and Workers Compensation.
  - A copy of these insurances must be provided to Niche Environment and Heritage prior to starting work.

- **Fit for Task**
  - Site Officers must be fit and able to complete the work as described above.

- **Fit for Working in 30-45 degree celsius temperatures**
  - Heat and hydration management have been identified as key safety risks for this survey. Site Officers must be fit and able to work in high temperatures and maintain hydration throughout the survey. This includes keeping up fluids throughout the day, always carrying enough water and also managing hydration and fatigue outside of work hours (adequate food, sleep and water).

- **Drug and Alcohol Policy**
  - Ikuka has a zero tolerance drug and alcohol policy. Workers may be subject to random alcohol and drug testing before work.

- **Personal Protective Equipment (PPE) Requirements**
  - Face up stacker safety shoes;
  - long sleeves shirts and pants;
  - high visibility clothing (vest or shirt);
  - Safety glasses;
  - Hat;
  - Sunscreen;
  - Gloves;
  - Wet weather clothing such as wet weather pants and rain jacket.

---

**Work Description**

- **Role**
  - 2 x Sites Officer

- **Tasks**
  - Anthropological survey (walking approximately 10-16 km over 10 hours in saltbush plains and mallee in temperatures up to 65 degrees celsius)
  - Aboriginal site and artefact identification
  - Assisting in site and artefact recording
  - Assisting in keeping the team safe

---

**Work Schedule**

- **Estimated Days of Work**
  - 12

- **Work Days**
  - Monday 8 December to Saturday 13 December
  - Monday 15 December to Saturday 20 December

- **Anticipated Work Hours**
  - Monday 8 Site Induction – 8 am at KIL
  - Rest of the week: Attendance at the daily prestart meeting (1.30 am-6 am)
  - Travel to Site (4.40am to 7 am)
  - Work Day (7 am to 4.45 pm) with 15 minutes of break
  - Travel to Balranald (2.45pm to 4 pm)

Work hours will be at the discretion of the Ikuka team leaders and may vary based on the temperature forecast and unpredictable elements such as the wind. It takes 1 hour to record sites etc. We will endeavour to keep the working day to 10 hours.
Other Requirements

- Site Officer must have a small backpack which allows them to carry 3L of water and food for the day.
- Niche can loan a 2L water bladder if site officer is unable to bring their own.
- Site officers are responsible for providing their own meals (incl. breakfast, lunch, snacks and dinner). Travel to Balranald and accommodation. Niche will provide transport from Balranald to the work site each day.
- You will need to provide a signed copy of this agreement and insurance to be able to start work.

Field Survey Agreement December 2014 Balranald Mineral Sands Project 6 of 5
Balranald Mineral Sands Project: Additional Cultural Heritage Survey December 2014

Field Survey Agreement with Registered Aboriginal Parties

As Bula Resources is progressing through the Balranald Mineral Sands Project, the need for additional cultural heritage surveys has been identified. The new areas of interest include:

- Potential groundwater re-injection infrastructure areas (Injection Borefield Extension 5, Borefield 6, Borefield 7, Borefield 8, Borefield 9, Borefield 11).

We would like to invite four site officers from your Registered Aboriginal Party to assist in the Aboriginal archaeological and cultural heritage surveys of these new areas of interest.

Please read through the work requirements below and contact Clare Anderson at Niche Environment and Heritage ASAP and no later than Sunday 7 December 2014 if you site officers will be attending.

Please note you will need to provide a completed and signed version of this agreement and copies of relevant insurance to be able to commence work.

Procedures for Payments

Agreed fee for Services: $100 per hour up to $1000 per day (excluding GST).

This increase in the maximum daily rate is to reflect the longer work hours scheduled.

This fee is inclusive of any additional costs the Registered Aboriginal Party may incur, including, but not limited to:
- All travel costs
- All administrative fees
- All food and accommodation

Invoices should be addressed to:
Niche Environment and Heritage
PO Box W36
Parramatta NSW 2150
Email: clare@niche-eh.com
clareanderson@niche-eh.com

Payment Schedule: Invoices are processed monthly. Payment may take up to 30 days.

Agreement

I, ____________________________, confirm that our organisation agree with the above work schedule, conditions and procedures for payment for our involvement in the additional cultural heritage survey December 2014 for the Balranald Mineral Sands Project.

Signed: ______________________
Date: ________________________

### Field Survey Agreement with Registered Aboriginal Parties

**Balanald Mineral Sands Project: Additional Cultural Heritage**  
Survey December 2014

**Work Health and Safety Requirements**

Health, safety and the environment are priorities for Iluka. The project team must undertake all aspects of work in a safe manner. This includes undertaking all field work in accordance with Iluka health and safety and land access procedures.

**Inductions**
- Site Officers must complete an Iluka induction before commencing work.
- Site Officers must comply with the Site Work Method Statement for the project.

**Insurance**
- Site Officers must be covered by valid Public Liability and Workers Compensation.
- A copy of these insurances must be provided to Niche Environment and Heritage prior to starting work.

**Fit For Task**
- Site Officers must be fit and able to complete the work as described above.

**Fit for Working in 30-45 degree celsius temperatures**
- Heat and hydration management have been identified as key risks for this survey. Site officers must be fit and able to work in high temperatures and maintain hydration throughout the survey. This includes keeping upfluids throughout the day, always carrying enough water and also managing hydration and fatigue outside of work hours (adequate food, sleep and water).

**Drug and Alcohol Policy**
- Iluka has a zero tolerance drug and alcohol policy. Workers may be subject to random alcohol and drug testing before work.

**Personal Protection Equipment (PPE) Requirements**
- Lace up steelcap safety shoes;
- Long sleeves, shirts and pants;
- High visibility clothing (vest or shirt);
- Safety glasses;
- Hat;
- Sunglasses;
- Gloves;
- Wet weather clothing such as wet weather pants and rain jacket.

**Work Schedule**

- Estimated Days of Work: 12
- Work Days:  
  - Monday 8 December to Saturday 13 December
  - Monday 15 December to Saturday 20 December
- Anticipated Work Hours:  
  - Monday 8 Site Induction – 8 am at KUL
  - Rest of the week: Attendance at the daily pre-survey meeting (10am and 4pm)
  - Travel to Site (10am to 7am)
  - Work Day (7am to 2.45pm) with 45 minutes of break
  - Travel to Balranald (2.45pm to 4pm)
- Work hours will be at the discretion of the Niche team leaders and may vary based on the temperature forecast and unpredictable elements such as the area it takes to travel sites etc. We will endeavour to keep the working day to 10 hours.
Other Requirements

- Site Officer must have a small backpack which allows them to carry 2-3lt of water and food for the day.
- Niche can loan a 2lt water bladder if site officers are unable to bring their own.
- Site officers are responsible for providing their own meals (incl. breakfast, lunches, snacks and dinner), travel to Balranald and accommodation. Niche will provide transport from Balranald to the work site each day.
- You will need to provide a signed copy of this agreement and insurance to be able to start work.

To whom it may concern,

Re: Balranald Mineral Sands Project Update and Registered Aboriginal Party Consultation Meeting

I am writing to you and the other Registered Aboriginal Parties to provide an update on the Balranald Mineral Sands Project. As you are aware, in October and December 2014, we completed additional cultural heritage surveys of a series of proposed groundwater injection areas for the Balranald Mineral Sands Project. This data is now being processed and the draft Aboriginal Cultural Heritage Assessment report is being prepared.

We anticipate that the draft report will be ready for review by the Registered Aboriginal Parties around the 18 February 2015. In accordance with the Aboriginal Cultural Heritage Consultation Requirement for Proposents 2010, 28 days will be allocated for your review of the draft report. We will be seeking written comments and submissions on the report; particularly on the significance of the Aboriginal sites located in the project area and how the Registered Aboriginal Parties would like to see the sites managed by mid March.

In addition, we would like to invite up to three representatives of the LALC to attend a consultation meeting at 2.00pm on Thursday 26th of February 2015 in Balranald. The meeting will be held at the Balranald Inc Offices at 110 Market St, Balranald. Afternoon tea will be provided.

The purpose of the meeting is to provide a summary of the results of the draft Aboriginal Cultural Heritage Assessment report and to workshop the proposed management recommendations.

Please note that time and costs for attendance of the meeting will not be reimbursed.

Could you please RSVP by contacting Clare Anderson at Niche Environment and Heritage on 0488774105, or email (canderson@niche-eh.com) by Friday COB on the 20th February 2015. We look forward to seeing you at the meeting.

Yours sincerely

1.4.32 Copy of the draft Aboriginal cultural heritage assessment report presentation

A copy of the presentation delivered on 26 February 2015 was emailed to all Registered Aboriginal Parties on 2 March 2015.
Balranald Project: Transport

- Preferred product/package
  - Use of existing roads
  - Use of existing railnetwork
  - Balranald to Woodside via
    Kimba, Lucindale, Loxton and
    Whyalla

Balranald Project: Rehabilitation and Mine Closure

- Use of lake/ocean vegetation as coping
  - Beerabundah Dam
  - Progression re-vegetation at areas
  - Undertake on a regional basis
  - Accommodates
    - Agriculture
    - Irrigated arable
  - Makes sand attracting to
    fauna habitats

Balranald Project: Statutory Approvals

- Stage 1 (September 2011 - Intention to proceed December 2011)
  - Stage 1 - Preparation of project information
    (June 2012)
  - Stage 2 - Environmental Assessment
    (August - September 2012)
  - Environmental Management
    (October 2012)
  - Transmission Line (Stations 1 and
    2)
  - Elon形ite Assessments (2010 - 2014)
  - Environmental Assessment
    (December 2014)

Results of the Archaeological Investigation

- No site previously systematically
  surveyed
- Surveyed sample area project
- Early results
- Previous local survey results
- Archaeological surveys
- Sample delivered focus on
  inferred sites
- Survey included 350 survey
  of area
- Coverage of 2130 ha

Archaeological Survey Results

- 40 archaeological sites
  - 100 m of the project area
  - 30 sites within the project area
  - 2130 ha

Types of Aboriginal sites identified

- Sites identified in the
  project area contain one or
  more component:
  - 50% of sites contain
    cultural components
  - 50% of sites contain
    cultural components
  - 0.5% of sites contain
    culturally modified trees
  - 10% of sites contain
    culturally modified trees
  - 21% of sites contain
Artifact per site
- The most common number of artifacts at a site was 1.
- The maximum number of artifacts at a site was 1,000 (estimated).

What kind of activities were happening in the project area?
- Short-term travel and occupation by small groups of people over time (suggested by the number of occurrence sites and small occurrences of hearths).
- Occasional longer-term occupation at larger sites (such as V805).
- Occasional short-term occupation at larger sites (such as V805).
- Food preparation and cooking (suggested by the presence of hearths and stones at some sites).
- Transportation of stone into the project area for the production, manufacture of stone artifacts and use as tools.
- Production of stone artifacts at site (U77) and burners (U785, U730).
- Transport of artifacts (suggested by the presence of grinding stones and stones at some sites).
- Food preparation and cooking (suggested by the presence of hearths).

Where were the artifacts and sites found?
- Short-term travel and occupation by small groups of people over time (suggested by the number of occurrence sites and small occurrences of hearths).
- Occasional longer-term occupation at larger sites (such as V805).
- Occasional short-term occupation at larger sites (such as V805).
- Food preparation and cooking (suggested by the presence of hearths and stones at some sites).
- Transportation of stone into the project area for the production, manufacture of stone artifacts and use as tools.
- Production of stone artifacts at site (U77) and burners (U785, U730).
- Transport of artifacts (suggested by the presence of grinding stones and stones at some sites).
- Food preparation and cooking (suggested by the presence of hearths).
Statements of scientific significance:
- Areas of high and moderate archaeological value; and high archaeological value.
- Areas of high and moderate importance include:
  - Boon Drek burials; those areas and areas of cultural landscapes and depressions.
These areas may be able to provide a story on how people inhabited the area as the probability of water changes from the terminal Pleistocene to the present. This area may also provide additional information on local and regional scale features for making stone tools.

Statements of social and cultural significance:
The project area has social significance to the Aboriginal community because it contains archaeological sites and traditional resources that establish a link between the past and present recognition of the area.

Aboriginal Community Consultation:
- Please refer to the Aboriginal community consultation process for more information on traditional sites and areas of cultural significance within the project area.
- The section of the report on social and cultural significance of the project area will be completed based on your feedback.

Areas of research interest:
- Development of management and mitigation measures - approach
  - Avoidance and in situ consultation:
  - Potential avoidance strategies in situ consultation and in situ management
  - In situ consultation and in situ management and identified areas

Impact assessment:
- Avoidance during mine plan design and development:
  - Examples of mine plan changes which may reduce the overall impacts to the project site include:
    - Reduced areas and volumes of impacted areas and volumes of impacted areas
    - Reduced areas and volumes of identified areas
    - Reduced areas and volumes of identified areas

Surface and subsurface salvage program - mitigated harm:
- High-risk areas:
  - The impacted high-risk areas and salvage areas are areas within the project where activities involving cultural heritage and traditional resources are at risk.
  - Mitigation plans are:
    - Preserve and protect identified areas
    - Salvage surface impacts to high-risk areas
    - No mitigation plans are:
      - No significant areas

Management and mitigation measures: ACHMP

- An ACHMP will be developed for the Project.
- The ACHMP will be developed in consultation with the ACHOs.
- The report outlines the usual protocols that might be found in an ACHMP and are a useful starting point for thinking about how you would like to see the Aboriginal heritage site and values managed.

Summary

- Consultation to continue.
- Significant areas of work and any transactions completed.
- Initiatives identified, 183 in the project area and 290 in the disturbance area.
- Archaeological risk types developed to guide decisions.
- 32 medium 37 minor and 3 high-significance sites identified in the project area.
- Develop management and mitigation measures.
- Develop ACHMP.
- Mitigation via excavation and high-risk areas of unknown impact.
- Adaptive management approach for operational phase.

What's next?

- Receive the draft document.
- Provide relevant information about the cultural significance and values of the Aboriginal objects and/or places.
- Provide comment, recommendations, and contributions to the development of cultural heritage management options and.
- Provide recommendations for any Aboriginal objects and/or places within the project area.
- Provide written comments on the draft report no later than Thursday, 19 March 2015.

Please do not hesitate to contact Claire or Jamie to discuss any aspect of the project.

Discussion
1.4.33 Postal and email logs of delivery of the draft Aboriginal cultural heritage assessment report

Hard and digital copies were hand delivered to attendees of the meeting on 26 February 2012:

- Balranald Local Aboriginal Land Council
- Kullila Site Consultants
- National Koori Site Management

Additional hard copies and digital copies of the draft report were sent by registered post to:

Balranald NSW 2715

Dear Kay Dowdy,

Re: Update on the Iluka Balranald Mineral Sands Project

You are receiving this letter as a Registered Aboriginal Party for the Balranald Mineral Sands Project. I am writing to you and the other Registered Aboriginal Parties to provide an update on the Balranald Mineral Sands Project.

We have now completed the draft Aboriginal Cultural Heritage Assessment for the project and have progressed to Stage 3 and 4 of the Aboriginal Community Consultation Requirements for Proposents (OEH 2010). We have attached for your review:

- The draft Aboriginal Cultural Heritage Assessment report;
- A CD with digital copies of the appendices;
- A presentation which summarises the draft report.

The purpose of the review is to provide you with an opportunity to have input on:

- the assessment of cultural significance of the project area, Aboriginal heritage sites and any Aboriginal heritage values contained within the project area;
- the development of management and mitigation measures of Aboriginal heritage values within the project area.

28 days have been provided for your review in accordance with the consultation requirements. Please provide any comments or submissions you have on the draft report to us no later than 30 March 2015.

If you are a member of the Local Aboriginal Land Council, there may be opportunity to discuss this project with board members of the Local Aboriginal Land Council as they are also a Registered Aboriginal Party for this project.

Please note that the information provided is in draft and has been provided to you as a Registered Aboriginal Party to help improve the draft for this project and is not for public distribution.

Please do not hesitate to contact me if you wish to discuss any aspect of this project.

Yours sincerely,

Subject: Re: 173011uka Balranald Project Aboriginal Cultural Heritage Assessment report

Hi Clare,

Thanks for patients - On behalf of the Balranald Aboriginal Health Service
Muthi Muthi

My comments and recommendations that all cultural tools be stored in a safe place and return to location once the mind is ground are closed covered.

Muthi Muthi field workers who assisted with cultural assessment be employed on site as care takers to look after all cultural tools and artifacts while kept in storage until such time that the cultural tools and artifacts are return to ground that they were taken from.

I recommend that care is taken all time and that the environment and its habitat will remain a proxy during the operation of the mining by Juuka.

Regards

Danny Kelly

Hi Danny,

Just a reminder that written comments on the draft Aboriginal Cultural Heritage Assessment report are due on Monday 30 March. The latest I can receive them and still have time to incorporate them before the report is submitted is before 10 am Tuesday 31 March. If you would like to discuss any aspect of the report please don’t hesitate to call me. Also is there a new contact number for you? All the number I currently have for you aren’t working?

Cheers,

Clare
Hello Clare,

I rang both Nanette Smith and Dave Edwards who attend the workshop on 26/2/16 regarding them providing written feedback. Nanette Smith stated that when she spoke to you at the workshop on 26/2/16 it was to invite you to a members meeting to discuss the project. As previously discussed, the date of the next members meeting is in April 2016 which is after the closing date for feedback on the draft report.

When talking to Dave Edwards on providing feedback, his comments were that the report indicates consultation was with the Multhi Muthi clan and as there are descendents from other clans such as the Nari Nari and Yidi Yidi clans living in the Balranald area, representatives of these clans should have been involved in the initial consultation process. However, having said that, it is possible that consultation with the Nari Nari and Yidi Yidi clans was not required as the archaeological site work undertaken was not located within these clan areas?

Subject: 1720 Iluka Balranald Project Draft Report Submissions Due

Hi everyone,

Just a reminder that written submissions to the draft Aboriginal Cultural Heritage Assessment report for the Balranald project are due tomorrow (Friday 27 March). The latest that I can receive submissions and still have time to incorporate them into the report is before 10 am on Tuesday 31 March. Please do not hesitate to call me if you wish to discuss anything.

Cheers,

Clare

Balranald Minerals Sands Project.

Dear Clare,

On Behalf of National Koori Site Management & Kullila Site Consultants, our comments on the Final Draft for the above mentioned Project.

As Muthi Muthi descendants, we find ourselves in a very hard position, on protecting the old ways and progression of our country, with future employment.

We accept your final draft as a true and correct report, but would like to see, Site officers employed throughout the life of the mine, to oversee that any burials sites be protected.

Even though there were a lot of surface Artefacts, scarred trees, ovens etc., protecting our Cultural must have high importance.

We would at some stage still like to do a small Dig, just to see what is below the ground.

Thank you for giving both our Groups the opportunity to work on Country.

Yours Sincerely,

Maria Maher

</tbody>
</table>
25/09/2014 2.19pm, 2.30pm  
BAHS / Mutthi Mutthi Nation  
Clare Anderson received two missed calls from Daniel Kelly Snr of BAHS on 0455597647 and 0437527966.

26/09/2014 9.11 am, 10.11am  
BAHS / Mutthi Mutthi Nation  
Clare Anderson received a missed call from Danny Kelly Snr of BAHS on 0455597647. Clare returned the call via voice message box at 10.11am and spoke for 7 minutes to Daniel Kelly Snr. Clare invited two site officers from BAHS to attend the upcoming survey of the additional work elements for the Project. Clare informed Daniel of the dates 7-18 October, work conditions and indicated that work conditions would be similar to previous surveys. Daniel noted that he thought it wasn't really fair for Kullila Site Consultants and national Koori Site Consultants to attend the survey as they were not from the local area and didn't have local knowledge and by attending they were taking away work opportunities for those who were more suitable.

Sent though further work details on Monday 29/9/2014. Let Daniel know re workers on Wednesday.

29/09/2014 2.32pm  
BLALC  
Clare Anderson called Balranald LALC on its landline number. There was no answer. Left message on answering machine.

29/09/2014 2.42 pm  
BLALC  
Clare Anderson called Thaddeus Nagas, the former CEO of Balranald LALC. Thaddeus provided contact details for the Far Western NSW ALC Zone Office Ross Hampton. Received contact details from Thaddeus via email at 2.52pm.

29/09/2014 3.02pm, 3.03pm  
NSW ALC Far Western  
Clare Anderson left messages for Ross Hampton on landline 08 8087 9587, mobile 0407945324 and emailed survey agreement and invitation.

29/09/2014 3.27pm  
BAHS / Mutthi Mutthi Nation  
Provided survey agreement by email to dkelly@macmildura.org.

29/09/2014 4.03pm  
Kullila Consultants  
Clare Anderson called mobile in consultation log for Maria Maher. No answer, left a message.

29/09/2014 4.02pm  
National Koori Site management  
Clare Anderson called mobile in consultation log 0423795389. A young girl answered the phone. Left a message. Emailed survey agreement at 4.01pm.

29/09/2014 4.18pm  
Kullila Consultants  
Emailed survey agreement at 4.02pm. Clare Anderson received phonecall from Maria Maher on 0455551982. Spoke for 2 minutes. Maria Maher asked about the dates and questioned the payment fees and conditions for payment. I explained that the fee proposed included travel costs, food and accommodation. Maria stated that their fees were usually $120 per hour and that we would need to make an alternative agreement if they were responsible for food and accommodation and that once that was sorted she would sort out accommodation. I said I would need to take it back to Iluka.

**6/10/2014 - 18/10/2014**

Attendance of fieldwork by representatives of the RAPs. Issues raised by NKSM/Kullila included recommendation for people to fight for subsurface testing and more work, the collection of the core and site located in the middle of the lake basin on West Reinjection Area 3, a request for the GIS data to be sent through to Maria. Daniel Kelly Snr requested for prompt payment of workers invoices and Gloria, on behalf of Marcus, wanted to know exactly when payment would be made. We also had some demands to be included in fieldwork from walk-ins at the induction from Yithi Yithi Nation (corporation, Kennedys) otherwise they would "not endorse our CHMP". Sighted signed copies of fieldwork agreement from BAHS, NKMS/Kullila and insurances from all groups.
